

Training and Evaluation Outline Report

Task Number: 71-8-2230

Task Title: Provide Intelligence Support to Protection (Division - Corps)

Supporting Reference(s):

| Step Number | Reference ID | Reference Name | Required | Primary |
|-------------|--------------|-------------------------|----------|---------|
| | ADRP 2-0 | INTELLIGENCE | Yes | Yes |
| | ADRP 3-0 | Unified Land Operations | Yes | No |
| | ADRP 5-0 | The Operations Process | Yes | No |
| | ADRP 6-0 | Mission Command | Yes | No |
| | FM 3-55 | INFORMATION COLLECTION | Yes | No |

Condition: The command has received an operations plan, or warning, operations, or fragmentary order from higher headquarters and is exercising mission command. The commander has issued guidance on providing intelligence support to protection. The command has established communications with subordinate and adjacent units, and higher headquarters. The mission command system is operational and processing information in accordance with standard operating procedures. Some iterations of this task should be performed in MOPP.

Standard: The analysis and control element provides intelligence support in protecting the tactical force's fighting potential by monitoring and reporting the activities, intentions, and capabilities of threat groups so it can be applied at the appropriate time and place, including addressing measures the force takes to prevent or mitigate hostile actions against personnel, resources, facilities, and critical information.

Note: Task steps and performance measures may not apply to every staff, unit or echelon. Prior to evaluation, coordination should be made between evaluator and the evaluated staffs or units' higher headquarters to determine the performance measures that may not be evaluated.

Special Equipment: None

Safety Level: Low

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks: Task content last updated: 09 May 2012

Notes: None

TASK STEPS

1. The analysis and control element conducts analysis to support protection, providing vulnerability assessments of all threats, actual or potential by:

a. Providing threat and risk assessment on:

- (1) Air, space, and missile defense.
- (2) Chemical, biological, radiological and nuclear.
- (3) Antiterrorism.
- (4) Inform and influence operations.
- (5) Security to operational forces and means.

b. Providing information on:

- (1) Incidents by the threat affecting security of the force.
- (2) Potential terrorist acts against U.S. forces or its allies.
- (3) Potential asymmetric attacks.
- (4) Weapons of mass destruction.
- (5) Support to suppression of enemy air defense operations.
- (6) Priority intelligence assigned to counter reconnaissance elements.

2. The analysis and control element monitors and reports the activities, intentions, and capabilities of adversarial groups and determines possible courses of actions by:

a. Providing predictive intelligence based on analysis of focused information, situational awareness from current intelligence, law enforcement, and security activities.

b. Employing analytical methodologies and tools, providing situational understanding by:

- (1) Providing targeting information on the threat's ability to target and affect friendly forces, facilities, and operations.
- (2) Identifying and recommending actions to counter enemy intelligence collection capabilities.
- (3) Assessing and reviewing friendly vulnerabilities and the threats ability to exploit them.
- (4) Identifying threat's perception of friendly centers of gravity and how to attack or influence them.
- (5) Identifying potential countermeasures to deny the threats access to friendly critical areas.

(Asterisks indicates a leader performance step.)

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with FM 5-19, Composite Risk Management. Leaders will complete a DA Form 7566 COMPOSITE RISK MANAGEMENT WORKSHEET during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, NBC Protection, FM 3-11.5, CBRN Decontamination. .
